## The LISSAUER GALLERY

**In the Myers Mansion along the stairs and main hallway on the SECOND FLOOR—no elevator**

**East wall on landing** 68"x40.75" (NB there is an emergency light on this wall and usually we hang the artist's statement here with small works)

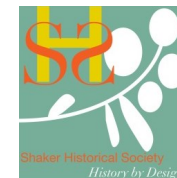

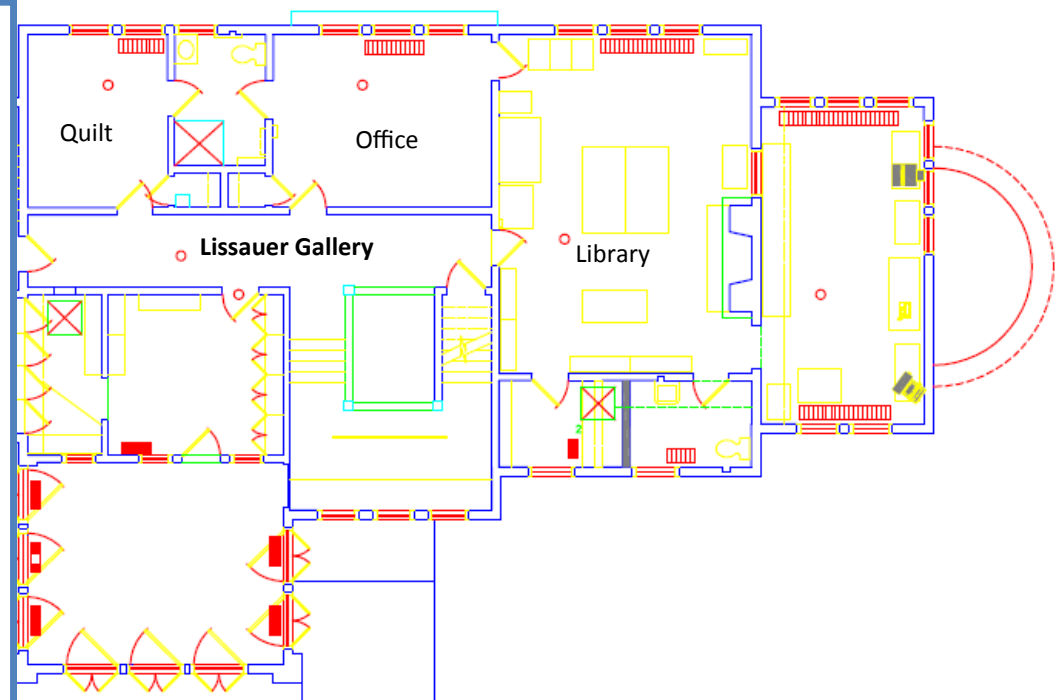

**West wall on landing** 110.25" x 40.75" (NB there is a high chair rail below, which can be covered. It was not measured. This is a prime location for a larger work).

**Long wall** along south side of hall 159.5" L

**North wall** up to Quilt Room 87"W

**North wall** between Quilt Room and Director's Office 87.5" W

**North wall** between office and library 112.5"W (also a good place for a larger canvas with a longer view from landing).
